

## Press Release Quick Tips

---

### VCC's New FlexVolt™ Technology Allows Indicators to be Used With Voltages Ranging from 5V to 28V

**Distribution Date:** November 24, 2014

**Product Name:** 14mm CNX 714FV Series all-in-one indicator

**Product Description:** The rugged CNX 714FV Series panel-mount indicators combine design flexibility and ease of assembly with ruggedness and reliability. The all-in-one CNX 714FV Series 14mm indicator utilizes FlexVolt™ Technology, enabling it to be used with voltages from 5V to 28V.

**Key Markets/Applications:**

- Automotive
- Aerospace
- Industrial
- Instrumentation
- Medical
- Military
- Mining
- Outdoor
- Safety
- Transportation
- Vending & game machines

**Key Benefits:**

- Used with voltages ranging from 5V to 28V
- IP67 / NEMA 6P rating for out door environments
- Resistant to shock and vibration
- Fast pitch threads that require only one turn for easy assembly
- Direct sunlight visibility
- Wide viewing angle for maximum light detection

**Product Specifications:**

- 14mm mounting hole
- 24 AWG wire leads
- Custom LEDs and lens colors are available upon request
- Moisture seal
- RoHS & Reach-compliant
