

Press Release Quick Tips

NEW ROBUST LED PANEL MOUNT INDICATOR SERIES FROM VCC IDEAL FOR FREQUENT ON-OFF CYCLING

Distribution Date: August 5, 2016

Product Name: L65 series

Product Description: 5mm LED Robust Panel Mount Indicator - Mounting Hole 0.315” (8mm)

Key Markets/Applications:

- Industrial
- Transportation
- Food Service
- People Movers
- Medical Equipment
- Maritime
- Oil and Gas Industry
- Manufacturing
- Automation & Control
- Transportation Dashboard
- Electrical Control Panels

Key Benefits	Product Specifications
<ul style="list-style-type: none"> ● L65 Series reflector is a robust panel mount indicator, where the reflector is designed to allow maximum light distribution with a 30° or 45° degree viewing angle. ● Available with red, green and yellow LEDs, they offer benefits such as a recessed LED, maximum light distribution, long lamp life, low heat output ● LEDs achieve full brightness in microseconds and are ideal for use in applications that are subject to frequent on-off cycling. ● Rugged vibration LED indicators are well suited for a number of applications, including industrial control panels, transportation dashboards, and aircraft instrumentation. ● O-ring accessory available for watertight applications. 	<ul style="list-style-type: none"> ● Available in a robust body and recessed LED position for front panel mounting ● Mounting hole size: 0.315” (8.0mm) ● Max. panel thickness: 0.196” (5.0mm) ● Diffused 5mm LED (T-1 3/4) offered in Red, Green or Yellow color ● 30 degree or 50 degree viewing angle ● Straight leads termination ● Body Material: Brass, chromium plated ● Rated voltage from 2 to 24 VDC ● Mounting hardware provided ● Accessories: <ul style="list-style-type: none"> ○ O-Ring Gasket to secure for water, dust and oil tight applications ● Life Expectancy: 100,000 hours ● Compliant with RoHS and REACH requirements
