

# HAND TOOLS

## Limited Lifetime Warranty

Phoenix Contact hand tools are fully covered under warranty for one full year. During that year, should your Phoenix Contact hand tool malfunction from defects in workmanship or materials or should it fail to provide complete satisfaction, Phoenix Contact will repair or replace the tool free of charge. Each Phoenix Contact hand tool is warranted to be free from defects in material and workmanship for the life of the tool under normal wear and tear, except for damage caused by misuse or alteration. After the one-year warranty period expires, the tool is covered by a limited lifetime warranty. The limited lifetime warranty does not cover wearable parts that can wear out from normal use. Wearable parts include: tips of screwdrivers, springs, cutting edges of a tool and the die set in a hand crimp tool. The warranty is not applicable to products which have been misused, abused, damaged by accident or otherwise, rented to another person, repaired or modified by anyone other than a Phoenix Contact-authorized repair technician and is in lieu of all other warranties, whether expressed, implied or statutory. Warranty ends when the product becomes unusable for reasons other than defects in workmanship or material.
